# Laurel Gary
## *Aspiring Data Analyst*

## PROFILE

**Highly motivated recent computer science graduate eager to embark on a career in data analytics. I hope to combine my strong programming background and desire to create compelling data visualizations to help organizations translate requirements into insights and drive innovation through data-driven strategies.**

## PROJECTS

### Bellabeat Case Study

- Utilized R packages (ggplot2, tidyr, dplyr) to analyze Fitbit user data and create compelling data visualizations that helped inform strategy recommendations for the wellness company, Bellabeat for the Google DA Course.

### Resource Matching Software Development

- Worked with a team to develop and deploy an effective management software to connect professors and teaching assistants using the python-based web framework, Django.

### E-Commerce UI/UX Development

- Utilized Factory Method, Flyweight, and State from the 23 design patterns to create an interactive storefront in Java, utilizing user inputs for an enhanced user experience.

## EDUCATION

### B.A. In Computer Science
### Minor In Managing for Social Impact

Boston College (Chestnut Hill, MA)
*Sept 2019 - May 2023*

## CERTIFICATE

### Google Data Analytics
Developed skills in data cleaning, analysis, and visualization to drive data-driven decision-making using complex datasets
*August 2023*
